### IN THE PROTECTORATE—*continued.*

#### NOTES.

In all cases the value of the property involved or the amount of damages claimed must be stated in the writ of summons.

Where one summons contains more than one claim, separate fees for the summons and hearing are payable on each claim.

The same fees are payable on a counter-claim as if the claim had been made by summons.

Half the hearing fee is payable where the whole cause of action is admitted at or before the commencement of the hearing.

Where an officer serves or executes more than one document or writ on the same route, one mileage fee only is charged; and it is to be apportioned amongst the documents or writs.

Where the Sheriff or Registrar executes any duty in person by direction of the Court, he is entitled, instead of mileage fees, to his actual travelling expenses, and such travelling allowances as the Court may direct.

The fees paid to the Sheriff and Officers of Court cover all such expenses as cost of paper, preparation and posting up and delivery of notice, hiring, and ringing of bells and the like.

The Court may, in any case, civil or criminal, require a witness's expenses to be paid or secured before issuing a subpoena for the witness.

The travelling expenses of witnesses in all civil and criminal causes shall be allowed according to the sums reasonably and actually paid.

An officer in the Public Service when summoned as a witness, except when summoned by the Crown, is allowed costs and travelling expenses as if he were not in the Public Service, when a witness actually attends for less than one hour, he may be allowed only half costs if the Court thinks fit.

In criminal proceedings the Court may, if it thinks fit, direct repayment of any fees paid.

No fees are taken which would be payable by any public department; but in criminal proceedings such fees shall, nevertheless, where they would ordinarily be payable, be taken as paid for the purpose of assessing any costs which the Court shall direct to be paid.

#### ALL FEES ARE PAID INTO THE TREASURY FOR PUBLIC USE.

The following fees are paid to the officer or officers concerned :—

## POLITICAL FRANCHISE

1925.

### LEGISLATIVE COUNCIL.

Under the provisions of the Sierra Leone (Legislative Council) Order-in-Council, 1924, three members are elected to the Legislative Council for a term of five years each, viz., two for the Urban and one for the Rural Electoral Districts.

The Urban Electoral District consists of the City of Freetown (section 4 Cap. 80), together with the Sherbro Judicial District (Governor's Order of 16th May, 1921).

The Rural Electoral District consists of those parts of the Colony not being within the City of Freetown which are within the Peninsula of Sierra Leone, together with Tasso Island and the Banana Islands.

The electorate is confined to male British subjects, or natives of the Protectorate capable of reading and writing English or Arabic, of twenty-one years of age, having resided for twelve months in the electoral district in which the vote is claimed.

The property qualifications are : in the Urban Electoral District, ownership or occupation of premises of not less than £10 in value or receipt of a yearly salary of not less than £100 ; and in the Rural Electoral District, ownership or occupation of premises of not less than £6 in value, or receipt of a yearly salary of not less than £60.

No person is capable of being elected a member of the Legislative Council if he is not twenty-five years of age, if he has been dismissed from the Government Service or debarred from practising as a legal or medical practitioner by a competent authority, or is in the public service of the Colony or Protectorate, or is not registered as an elector. The property qualification for a member is the possession of real or personal property of the value of £250 for the Urban and £100 for the Rural Electoral District.

### CITY COUNCIL.

There is a semi-elective council in Freetown, called the City Council.

# IMPORTS AND EXPORTS

## 1925.

### ALL TABLES RELATE TO THE CALENDAR YEAR.

#### SUMMARY TABLES.

Table 1 shows the total value of imports from each principal country, including bullion and specie, together with classifications in groups under the four main heads of :—

- i. Food, drink and tobacco.
- ii. Raw materials and articles mainly manufactured.
- iii. Articles wholly or mainly manufactured.
- iv. Miscellaneous and unclassified.

A separate column records the particulars in respect of bullion and specie.

Table 2 gives like particulars in regard to domestic exports, and table 3 furnishes similar information with respect to re-exports. Table 4 shows the value of total exports to each country by classes.

#### DETAILED TABLES.

Tables 9 and 11 show in alphabetical order imports and exports of articles from and to each country.

The table relating to imports (table 9) shows separately the "total imports" and imports for home consumption. The total imports include all goods landed and afterwards re-exported. The imports for home consumption include goods entered for use in the Colony at the time of importation and goods cleared for home use ex-warehouse.

#### COUNTRIES TO WHICH IMPORTS AND EXPORTS ARE CREDITED.

Imports are classified as received from the countries whence they were consigned. These countries are not in all cases the countries of actual origin, since goods produced in one country may be purchased by a firm in another country, and thence despatched, after a longer or shorter interval, to the Colony. In such a case the second country, being the country of last ownership, would be the "country whence consigned."

Exports are credited in the tables to countries to which they are consigned, whether that country possesses a seaboard or not.

#### METHOD OF ASCERTAINING QUANTITIES AND VALUES OF IMPORTS AND EXPORTS.

The statements of quantities and values are based on the declaration of importers and exporters as subsequently checked by the Customs officials. Where goods are entered by weight the quantities shown as imported (except in cases where duty is charged on the gross weight) and exported represent the net weight exclusive of packages, sacks, casks, etc., in which they may be contained.

The values of imports are exclusive of the amount of duty, and are "c.i.f."; the values of exports are "f.o.b." values, inclusive of export duty.

Imports and exports by parcel post have been recorded under their proper statistical heads in the various classes.

CONCESSIONS AND LICENCES.			General Information regarding the Industry and the Possibilities of Development.
Concessions, cutting licences, etc.	Number.	Area covered.	
Timber	...	No concessions granted, only few licences to fell trees.	The timber industry, a very small one, is chiefly carried on by the native sawyers and canoe makers who work in unreserved forests over which the Government have no control.
Rubber	...	None collected.	From the reserved forests, most of which at present are rather inaccessible, no large supplies of timber can be obtained. Unless a saw-mill is erected suitable for breaking down large logs no great development of the industry is possible.
Gum copal	...	Tapping now suspended.

Not ascertainable.	1d. to 3d. each	Not ascertainable.	<p>Fish abounds in the river Rokelle: but the catches are irregular owing to the fact that only surf boats with drag nets are used in connexion with the industry. In various parts around Freetown, where there are tidal rivers, a fair quantity of fish is caught by setting traps with galvanized wire netting. Trammel nets have also been tried but unsuccessfully, although a kind of net made locally is used in some portions of the Southern Province in the same way as trammel nets.</p> <p>In 1912 a steam trawler, owned by the West African Trawling and Trading Company, Ltd., of 66, Finsbury Pavement House, London, E.C., commenced operations in this Colony, but discontinued owing, partly, to faulty management.</p>

There are no manufactures in the Colony or Protectorate. Simple articles for local use are made, the more important being baskets, boats and canoes, boots, shoes, sandals, coco-nut oil, cotton cloths, coarse dyestuffs (principally indigo), fishing-nets, seines, furniture, ground-nut oil, hammocks (cloth and grass), leather, building lime made from oyster shells, mats, palm oil, pottery, ropes and fishing lines, soap. The Military authorities have an ice and mineral water factory at Freetown.

**Summary of Industrial Development.**

There are no developments in the agricultural, forestal, fishing, mining and other industries of the Colony during the year. The reservation of the remaining virgin forest areas has been proceeded with. The total area of protected forest now amounts to 605.45 square miles.

## Roads.

Road.	Length open for traffic. — Miles.	Road.	Length open For traffic. — Miles.
<b>COLONY.</b>		<b>PROTECTORATE.</b>	
<b>Freetown.</b> The roads of the capital of the Colony are for the most part wide and well laid out, but, with few exceptions, have never been properly made up or drained. Of the total mileage open for traffic, approximately seven miles have been metalled with laterite, of which about a mile and a-half has been properly drained. The main arterial roads are in general use for light motor traffic and the majority of the main streets are negotiable.	50	The roads in the Protectorate are divided into three classes, viz.—first, second and third.  First-class roads are of a standard width of 16 feet with permanent bridges. Second-class roads are of a standard width of 10 feet with temporary bridges only; but in most cases, they have been brought up to the same width as first-class roads. Third-class roads are intended only as hammock roads, and are constructed and maintained by the local chiefs.	
<b>Peninsula.</b> The majority of the roads of the peninsula are earth roads, narrow and with steep gradients, while most of the bridges are suitable for foot traffic only.	180	First-class roads, either completed or under construction, are as follows :—  Moyamba-Sembehun ... 13 Kumrabai-Pujehun ... 107 Blama-Koribundu-Sumbuya ... 49 Boadgibu-Blama-Hangha-Panguna. 63 Segbwema-Bandajuma ... 26 (Pendembu-Kanre-Lahun-Moa River (French Frontier) 24 Mano-Taiana (with branch to Njala—2 miles. 15½	
The following first-class roads, provided with permanent bridges, and which have been widened, drained and surfaced with laterite, are now open for light motor traffic :—		The Moyamba-Sembehun road is open for motor traffic through its length. Kumrabai-Pujehun road, which is still under construction, has permanent bridges for 18 miles north of Bo, and 25 miles south of Bo, except for the Sewa River crossing which has a ferry-boat, and is open for motor traffic over these lengths. The Koribundu-Sumbuyah section (21 miles) of the Blama-Koribundu-Sumbuyah road is complete and open for motor traffic. Of the Boadgibu-Blama-Hangha-Panguna road the sections Boadgibu-Blama, 24 miles and Hangha-Panguna 20 miles are open for motor traffic, whilst 23 miles of the Segbwema-Bandajuma road, and the whole of the Pendembu Kanre-Lahun Moa River road have been bridged and are open for motors. Light lorries of the Ford type and other lorries up to a total loaded weight of 3 tons are in use on all roads which are open for motor traffic.	
Freetown to Hill Station ... 5 Freetown to Lumley Beach ... 5 Freetown to Hastings ... 14 Hill Station to Regent Saddle ... 2		2. The second-class roads which have been constructed are intended for motor traffic later. These roads are mainly the old third-class roads which have been widened by the chiefs with little or no assistance from the Government. The third-class roads also have been constructed and are maintained for foot traffic by the chiefs concerned.	
The following roads of steeper grade are passable for light motors but unsuitable for general traffic :—			
Wilberforce-Congo Town ... 3 Lumley Road-Murray Town ... 1 Kissy-Kissy buildings ... 1½ Hastings-Waterloo ... 7
